ABOUT COMPANY

FREYA MIDDLE EAST, provide extensive ship management services customized to fulfill the distinct requirements of ship owners and operators. Utilizing our profound expertise in the field and a team of seasoned experts, we offer effective and dependable solutions to enhance the efficiency of your fleet. We specialize in providing top-notch vessel management and marine services to the maritime industry. The success we have achieved is all thanks to our incredible team. Our team of highly skilled professionals, both on shore and on board, provides top-notch ship management services.'

Our Ship management services that encompass the following important areas:

TECHNICAL MANAGEMENT

Our team of technical specialists oversees all technical aspects of your boats, encompassing maintenance planning, coordination of dry-docking, repairs, and equipment enhancements. Our focus is on ensuring the dependability of our vessels, adhering to regulations, and implementing maintenance procedures that are both efficient and economical.

CREW MANAGEMENT

We oversee the recruitment, training, certification, and welfare of the crew, guaranteeing that your vessels are staffed with capable and enthusiastic mariners. Our personnel management services foster a secure and amicable working environment in accordance with rigorous industry standards.

Our pool of capable seafarers consists of ambitious and talented individuals. Our training center and worldwide network of personnel offices enable us to provide crew management services that meet your crew requirements precisely.

COMMERCIAL MANAGEMENT

We manage revenue optimization, chartering, contract negotiations, and market analysis, among other facets of commercial operations. Our proficiency guarantees the optimal utilization of your vessels, thereby optimizing your financial gains within the fiercely competitive maritime sector.

OPERATIONS MANAGEMENT

The day-to-day operations of your fleet are under our supervision, and we make certain that the activities of your vessels, voyage planning, bunkering, and port operations are all coordinated in a smooth manner. Our proactive approach reduces the amount of time that the system is offline, which in turn increases operational efficiency and overall performance.

PROCURE MANAGEMENT

Our services include procurement and management of supply chains, as well as the acquisition of high-quality spare parts, consumables, and equipment at costs that are competitive. As a result of our strategic approach to procurement, we can maintain cost control, ensure timely delivery, and manage inventories effectively.

CATERING SERVICES

We offer all-encompassing catering and hospitality solutions, including oversight of onboard provisions, menu development, adherence to dietary restrictions, and quality assurance. Our principal objective is to provide catering services of exceptional quality that elevate the morale and welfare of the personnel.

TRAINING AND CERTIFICATIONS

Certifications and specialized training programs are available for crew personnel, with an emphasis on security, safety, technical abilities, and career advancement. When it comes to meeting the ever-changing demands of the industry and government regulations, our training programs will make sure that your workforce is prepared.

INSURANCE SERVICES

We offer insurance solutions pertaining to special risks, energy, and marine matters. Possessing a wide range of expertise, including risk assessment, policy administration, and claims processing. With a wealth of knowledge regarding the insurance industry and practical expertise in cargo, our team is dedicated to ensuring an exceptional standard of service. Our range of services encompasses marine and offshore insurance coverage, in addition to a diverse selection of non-marine insurance options, including specialized insurance solutions tailored to the new energy sector.
